## SKILLS

TypeScript

JavaScript

React

Next.js

GraphQL

React Native

Redux

RTK Query

REST APIs

## ADDITIONAL TOOLS

HTML, CSS,

Storybook, Jest,

Testing Library,

MSW, Webpack,

Apollo, Tailwind,

Ruby, Rails, D3,

MongoDB,

Mixpanel,

Launch Darkly,

ChartJS, Prisma,

PostgreSQL,

Redux Toolkit,

Tanstack Query

## EXPERIENCE

### Deutsche Bank | Senior Frontend Engineer ..... Jan 2025 - Present

- Supported WebSocket and GraphQL integrations, reliable data flows, ensuring stable real-time communication, and predictable client-side behavior.
- Prepared and delivered frontend features by defining requirements, breaking down tasks, coordinating implementation, and supporting releases to production.
- Established clean, consistent component patterns, eliminated dead code, commit standards, introduced formatting, and PR templates to improve maintainability and code quality.
- Improved developer productivity and application stability by optimizing Webpack performance, streamlining repository workflows, and modernizing form-handling and error-handling patterns.
- Designed and validated a TypeScript-based micro-frontend architecture, resolved repository vulnerabilities, and mentored junior engineers through code reviews and hands-on guidance.

### Bennie | Frontend Developer ..... Feb 2021 - Dec 2024

- Utilized React, TypeScript, JavaScript, React Native, and Redux to develop and maintain robust customer-facing software, contributing to a company's growth.
- Led the frontend development of internal tools, resulting in a 40% increase in overall team efficiency and a significant reduction in work hours for the data ops team.
- Delivered reusable UI components by creating a company-wide design system with Storybook and MUI, enabling a reduction in development time for new features.
- Developed and maintained mobile applications with React Native on iOS and Android platforms.
- Implemented unit and integration tests with Jest, MSW, and Testing Library, which enhanced the reliability and maintainability of frontend applications and improved test coverage.

### NS Dev | Software Engineer ..... June 2019 - Mar 2021

- Designed and maintained responsive web apps, applying SEO best practices to boost search rankings, organic traffic, and client retention.

## EDUCATION

### App Academy (2020)

Immersive software development course with a focus on full-stack and frontend web development

### Udemy & Frontend Masters online learning (2019 - Present)

Pursued ongoing professional development in various technologies

### The City College of New York (2017)

Bachelor's in Mechanical Engineering
