Firestore
AWS
MongoDB

EXPERIENCE

Bennie | Frontend Devleoper .... *Feb 2021 - Present*

- Utilized React, Typescript, React Native, and Redux to devlope and maintain robust customer facing software, implementing data layer state management best practices and navigating complex requirements effectively

- Led the frontend team in developing internal tools, consistently delivering bug-free code to production, which significantly improved the efficiency and reduced work hours of the data operations team

- Collaborated with cross-functional teams to define and scope frontend epics and stories, ensuring a workload balance within an agile environment

- Leveraged Storybook and MUI to create a comprehensive design system by developing components in isolation, ensuring consistent and reusable UI elements across multiple apps

- Conducted thorough code reviews, cultivating a collaborative team culture focused on continuous improvement and ensuring high code quality standards

- Implemented unit, integration, and end-to-end tests with Jest and Testing Library ensuring the robustness and reliability of frontend applications

NS Dev | Web Developer .... *June 2019 - Feb 2021*

- Designed, built, deployed, and maintained fully responsive web apps for various clients in the US and worldwide

- Utilized Material UI, Bootstrap, and custom styling to build pleasant-looking and functional interfaces

- Implemented SEO best practices, enhancing online visibility for client websites

NYTC | Application Engineer .... *Sep 2018 - Sep 2020*

- Eengineered graphical user interfaces (GUI) for BMS HVAC systems, redesigned over 50% of existing GUI, developed new UX/UI standards for the company

TEC Systems | Control Systems Engineer .... *June 2017 - Sep 2018*

- Applied AutoCAD on a daily basis for high-level engineering and drafting

EDUCATION

App Academy *(2020)*
Immersive software development course with a focus on full-stack and frontend web development

The City College of New York *(2017)*
Bachelor's in Mechanical Engineering
